M-clamp and M-cover

Cable protection reinvented

The innovative cable protection system from ABB makes installing protection for cables faster, easier and providing a sleeker outlook. The system includes metal quick clamp and straight 1200 mm long covers with a corrosion resistant Magnelis® coating. Available in four different sizes (16, 22, 28 and 34 mm).

Quick clamp has wide oval hole for one screw, which makes installing faster and more flexible. Cover snaps on top of the quick clamp and results reliable and much nicer looking finish without any visible clamps.

Saves installation time

Weatherproof

Sleek design

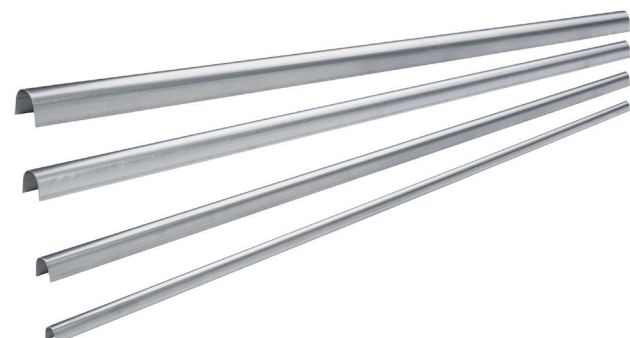

M-clamps

Innovative stainless steel quick clamp for installing cable protections. Clamp is installed first to wall with only one screw and cable protection snaps on top of it. Available in four different sizes: 16, 22, 28 and 34 mm.

M-cover

1200 mm straight cable protection. Available in four different widths: 16, 22, 28 and 34 mm. Cable protections are coated with Magnelis®. It is an exceptional metallic coating which provides a breakthrough in corrosion protection and is the best choice for a wide variety of applications.

Features

Stainless steel material

Integrated holes

For use of cable ties for strain relief or installation purposes. This is also making the job of putting cover much easier and faster.

No clamps are needed on top of the cover

The shape of the quick fixing clamp is enabling quick and reliable mounting of covers.

Wide oval opening

In the base of the clamp allows for mounting with single screw (compared to 2 screw mounting today). It also enables quick position readjustment making the finish result better.
